

St. Agnes School

building a foundation of faith †

To whom it may concern:

I am writing this letter in reference to NKOL, Mr. Ben Townsend and Mr. Ben Hanks. I have had a long and successful association with this company and it's employees.

Our school uses computers built by them for many reasons. The quality of materials is only a small portion of the reason. While they use the best of materials they also offer the best in technical support and stand behind the materials they make.

In addition to the hardware they supply us we use their services for all our networking and Internet needs.

NKOL has always provided sound, prompt, and financially reasonable services to our school.

It is without reservation that I recommend them to you for your computer services and materials.

Sincerely,

Oliver E. Dittus Jr.
