Dear Ben,

I would like to take the time to express our positive experience with NKOL over the years. For several years NKOL has been the backbone to our company computer needs and for this I thank you. A few things that stand out are your commitment to return phone calls, expedite service request and work within our budget has made Triangle Design Group a better company. We entrust your quality service and we look forward to working with you in the coming years ahead.

Thanks

Philip A Drees
